> I am a young and driven developer. Always up for learning new things. No challenge is too big.
> As a developer I try to focus on quality by applying the best practices I learned from my seniors. The most important part of the tech world for me is knowledge sharing, that's why my goal is to motivate and mentor younger developers and help them improving their work.

WORK EXPERIENCE

2019 – now — **Full stack developer**
Psylaris, Freelance

At Psylaris I developed and continue to maintain an application build for therapists that help people with posttraumatic stress disorder (PTSD). The dashboard also offers remote sessions with video call integration during COVID-19. I also provide hosting and CI/CD on Google Cloud Platform.

2018 – now — **Full stack developer**
Craftworkz, Part of Raccoons group

Craftworkz is a prototyping company that focuses on innovative technologies. I started as a junior developer, focussing on smaller projects and worked my way up to medior developer. Mainly working on larger projects and mentoring junior developers and interns in the company.

2018 – 2019 — **Platform developer**
Oswald, Part of Raccoons group

Oswald is a SAAS product that is used to build chatbots. I helped to develop features for the platform and mainly focussed on building integrations with services like Microsoft Teams, Google Storage, Twilio,...

2016–2018 — **Student web developer**
Codedge

During my time in college, my friend and I created a company named Codedge. In this company we created websites for smaller companies using PHP, Javascript, HTML5/CSS.

EDUCATION

2020 — **Google Cloud Associate Engineer**
Google certificate

An Associate Cloud Engineer deploys applications, monitors operations, and manages enterprise solutions. This individual is able to use Google Cloud Console and the command-line interface to perform common platform-based tasks to maintain one or more deployed solutions that leverage Google-managed or self-managed services on Google Cloud.

2015–2018 — **Bachelor applied computer sciences, web and mobile**
Pxl university, Hasselt

The bachelor of applied computer sciences gave a broad introduction to programming languages like Java, C#, Python, Javascript and PHP. I chose to specialise in Mobile and Web.
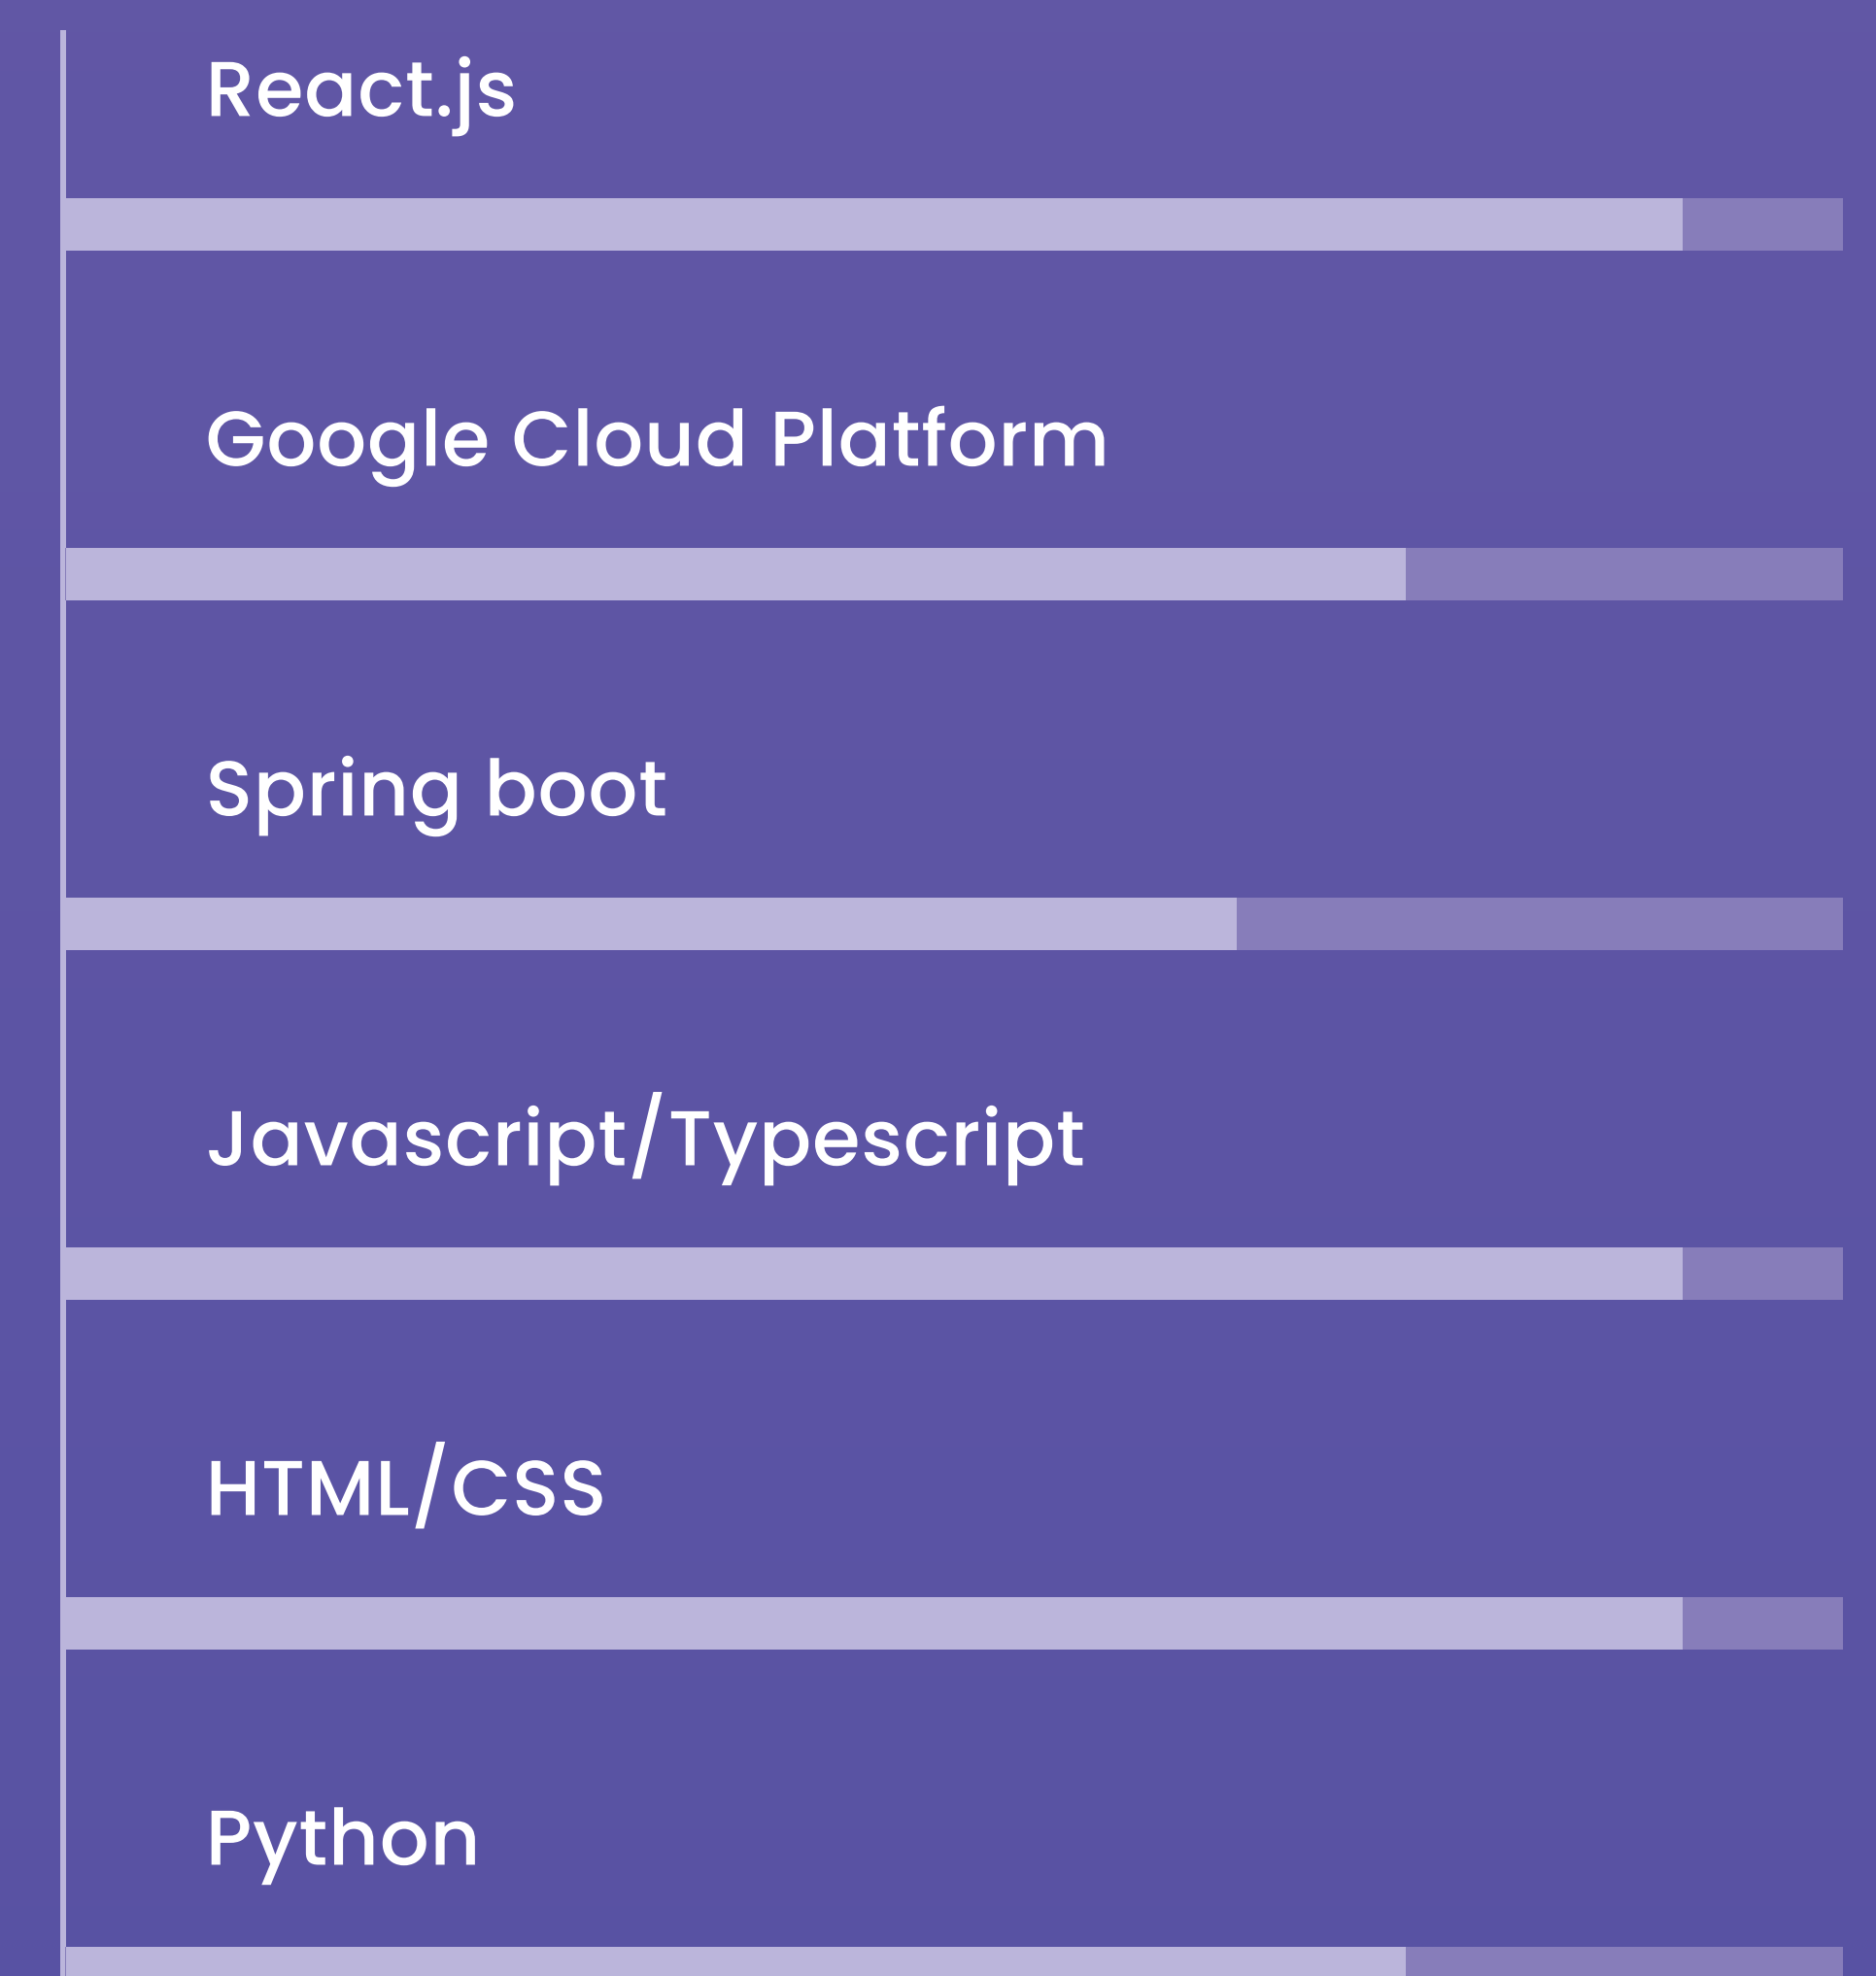

HOBBIES AND INTERESTS

In my free time I try to exercise as much as possible. My main sports are Brazilian Jiu Jitsu and fitness. I try to maintain my cardio with running and cycling. I can also enjoy nights out with friends or a walk/hike with my girlfriend. I also try to read and write blogs to share my knowledge.

Technical skills

- React.js
- Google Cloud Platform
- Spring boot
- Javascript/Typescript
- HTML/CSS
- Python
